LILIUM HARRISII (The Bermuda Easter Lily)

We offer a selected stock of the true original Harrisii for early forcing. The bulbs have been grown from the original pure Harrisii, and will be found to be splendid stock for early forcing, for which purpose Harrisii is so valuable. Our stock will be found very superior to the ordinary Harrisii usually offered.

For Christmas flowering, bulbs should be potted as early in August as they can be procured. For this purpose our 6 to 7-inch is preferable, as this size can be brought into bloom much earlier than the larger bulbs. When forced for Christmas, the bulbs require a temperature of at least 65 degrees at night.

6 to 7-inch bulbs, 15c. each, \$1.50 per dozen, \$7.50 per 100. 7 to 9-inch bulbs. (Sold out.) 9 to 11-inch bulbs. (Sold out.)

LILIUM FORMOSUM (Ready in September)

An early type of *Lilium Longiflorum*, grown on the Island of Formosa. Not quite so early as Harrisii, but much earlier than the regular *Longiflorum*. We offer the **black-stemmed** variety, which is superior to the green, the cost of the bulbs being a trifle more, but they are well worth the difference in price.

7 to 9-inch bulbs, 15c. each, \$1.50 per dozen, \$10.00 per 100. 9 to 10-inch bulbs, 25c. each, \$2.50 per dozen, \$15.00 per 100.

LILIUM GIGANTEUM (Ready in October)

This flowers much more freely than *Multiflorum*, and the flowers are larger and longer and have more substance, but it blooms a little later, and requires a little more time to bloom. It is distinguished by its dark brownish stem. It should be grown cool until the buds are set, after which it will stand any amount of forcing.

7 to 9-inch bulbs, 15c. each, \$1.50 per dozen, \$8.00 per 100. 9 to 10-inch bulbs, 25c. each, \$2.50 per dozen, \$14.00 per 100.

COLD-STORAGE LILIUM GIGANTEUM

7 to 9-inch bulbs, \$9.00 per 100.
9 to 10-inch bulbs, \$15.00 per 100.

LILIUM CANDIDUM (The Annunciation Lily)

Mammoth bulbs, 15c. each, \$1.50 per dozen, \$9.00 per 100.

Lily of the Valley

New importation ready in November

PIERSON'S PERFECTION

This is an extra selected grade for those who desire the finest valley grown. Price of valley has been driven down so low that it has been at the expense of quality, and growers are realizing that a really first-class article cannot be furnished at prices at which valley has been selling. The pips that we offer we have had selected for us with great care and they are the very finest pips grown in Germany. \$2.50 per 100, \$20.00 per 1000, \$35.00 per case of 2,000 pips.

Lily of the Valley

COLD-STORAGE

We carry only one grade of lily of the valley, and that the very highest quality obtainable. Cold-storage valley should always be used for December and early January flowering, for, while new importations arrive in November, the new stock does not force easily or give the requisite amount of foliage so early in the season; so that the cold-storage stock should always be relied upon for December and January forcing. It is advisable to place orders in advance for the quantity desired, which can be reserved, and shipped as wanted. Cold-storage stock must necessarily be shipped by express. Cases containing 250 pips, \$6.25 each. Cases containing 500 pips, \$12.00 each.

Offices and Show Room

are at Tarrytown, New York, which is our post office address, where all communications should be sent. We have here the finest flower store in the world, erected in 1914. From this part of our establishment we distribute to the retail trade the choicest roses, carnations, violets, lily of the valley, and other flowers in their season, fresh from our own greenhouses at Scarborough, on the Albany Post Road, five miles north of Tarrytown. In our greenhouses at Tarrytown are grown the finest Pierson ferns and other varieties, of which we make a specialty; also palms and other decorative plants. We deal, also, extensively in all kinds of bulbs and seeds and other requisites for country estates.

Floral Decorations

given particular attention. We have men experienced in this line of work and have the facilities for the artistic arrangement of flowers and plants for all occasions.

Greenhouse Establishment,

located in Scarborough, New York, is one of the largest in the United States. The greenhouses recently erected are of immense size, each covering half an acre. These greenhouses are devoted to the cultivation of cut flowers, with which we supply the markets of New York, Boston, Pittsburgh, Cleveland, and other cities.

Nurseries

are at Scarborough, New York, adjoining the railroad station and extending two-thirds of a mile along Broadway. They comprise over fifty acres, and contain a large collection of the choicest and rarest hardy shrubs and trees in the country. We have a particularly fine stock of Rhododendrons in the finest hardy varieties; also elegant specimens of Hemlocks, Japanese Maples, Dogwoods, Colorado Blue Spruces, Juniperus Virginiana glauca and Pfitzeriana Thuya Standishi (Arbor Vitæ), *Texus cuspidata* (Yews), etc., etc.

Our nurseries are exceedingly interesting when the various shrubs are in bloom—from early spring until late fall. Visitors are always welcome. Buyers will find it much more satisfactory to make a personal selection of stock than to order from a catalogue; but where distance or time will not permit, orders sent by mail will receive most careful and prompt attention.
